

CERTIFICATION IN UX/UI DESIGN

**Groot
Academy**
Build your world through Creativity

About Groot

Groot Academy, founded in 2002 and based in Jaipur, is more than just an IT training institute. We are a comprehensive skill development and startup incubation center, offering a range of programs designed to equip individuals with the skills they need to thrive in today's competitive world. With a focus on both technical education and entrepreneurship, we prepare our students not only for jobs but also to create and lead successful businesses.

At Groot Academy, we offer specialized training in Web Development, Mobile App Development, Data Science, Digital Marketing, Software Engineering, and much more. Additionally, we have a strong focus on entrepreneurship with dedicated courses such as "Learn Business by Doing Business," which allows aspiring entrepreneurs to gain hands-on experience in running a business while learning the fundamental principles of entrepreneurship.

As a startup incubation center, we provide resources, mentorship, and guidance to students and budding entrepreneurs, helping them turn innovative ideas into successful ventures. Our entrepreneurship programs include business planning, marketing strategy, financial management, leadership skills, and real-world problem-solving. These courses are designed to foster creativity and innovation, enabling students to gain the knowledge and skills necessary to launch and grow their startups.

Over the past two decades, Groot Academy has become a trusted name in education and skill development. Whether you're looking to advance in IT, develop essential business skills, or start your own company, Groot Academy provides the tools, knowledge, and support to help you succeed.

Join us at Groot Academy, where education meets entrepreneurship, and learn how to build your future from the ground up!

CERTIFICATION IN UX/UI DESIGN - 4 MONTHS

Program Overview:

This curriculum covers the fundamentals of UX/UI design and provides students with practical skills and knowledge that can be applied to a range of design projects. It also includes a focus on career development to help students prepare for a career in UX/UI design.
